Product FAQ

Sample product documentation for cross-document questions

Training data notice: This is fictional sample content created for testing a multi-document retrieval-augmented generation (RAG) application. It is not a real company's policy or product documentation.

1. Plans

- The Starter plan supports up to 5 team members.
- The Professional plan supports up to 25 team members.
- The Enterprise plan supports custom team sizes configured during onboarding.

2. Data and Exports

- Workspace administrators can export project records as CSV files.
- A standard export includes record ID, title, owner, status, and last-updated date.
- Exports do not include passwords, authentication codes, or private encryption keys.

3. Support

- Starter customers can contact support by email.
- Professional customers can contact support by email or live chat during business hours.
- Enterprise customers receive a named support contact and an agreed escalation process.
